

I want to bring up to you an issue that is bothering me. I have a subscription to XM radio that I pay \$10 a month to use. I just heard that you guys are going to limit the uses of the radio by cutting some of the stations that I pay good money for. Maybe I am just not educated enough on this issue, but I could have sworn that we have the 1st amendment right to listen to weather and traffic when we want to. I travel alot and can't always find a sation to broadcast news, traffic, songs, and weather, and found out that XM radio is the radio station that is always there. Please let my tax dollars be heard and reject NAB's petition 04-160.

Thank you

Joshua D Carrier
